

WATERFALL FOR TIBCO

SECURE MONITORING OF TIBCO ENTERPRISE MESSAGE SERVICE™

Industrial enterprises frequently need enterprise-wide access to industrial publishers and data. The Waterfall for TIBCO connector enables industrial enterprises to safely leverage industrial control system data throughout their enterprises.

Waterfall's solution for TIBCO Enterprise Message Service™ comprehensively addresses the needs of industrial enterprises to achieve safe, seamless integration of operational technology (OT) and information technology (IT) networks. By deploying the Waterfall for TIBCO connector, businesses eliminate the risk of remote cyberattacks entering their industrial control systems while enabling transparent access to critical operational data for improved efficiencies.

The Waterfall for TIBCO connector is simple to install, with user-friendly, web-based configuration and monitoring tools and comprehensive diagnostics.

BENEFITS OF USING WATERFALL FOR TIBCO

Secure replication of TIBCO Servers

Elimination of remote control cyberattacks and online malware propagation

Facilitates compliance with NERC CIP, NIST, CFATS, ANSSI, UK DfT and more

Seamless interaction with TIBCO ecosystem of industrial publishers

Simple deployment, off-the-shelf solution

Rails

Oil & Gas

Manufacturing

Water

Power

Pharma

WATERFALL FOR TIBCO

The Waterfall for TIBCO connector replicates operational TIBCO Enterprise Message Service servers in industrial networks to enterprise networks, optionally aggregating multiple plants into a single enterprise server. The Waterfall for TIBCO connector communicates normally with the TIBCO Server, accessing server information and replicating that server to TIBCO servers located an external, enterprise network.

Waterfall's Unidirectional Gateway hardware physically protects industrial assets, preventing any human errors, malware or cyber attacks - however sophisticated - from penetrating through the gateway hardware back into the protected industrial network. The Gateway hardware makes it physically impossible for attacks to flow from the enterprise network towards the nuclear power control network, eliminating any threats of online attacks, malware or human errors.

FULLY- FEATURED & ROBUST SUPPORT:

- » Real-time replication of TIBCO publish/subscribe communications and transactions
- » Support for all TIBCO data types
- » Supports SSL encryption
- » Powerful filtering to protect intellectual property
- » Flexible configuration of TIBCO transmission and queue parameters
- » Full access to TIBCO publish/subscribe features
- » Fully transparent to TIBCO enterprise messaging users
- » Standard 1Gbps connectivity

ABOUT WATERFALL SECURITY SOLUTIONS

Waterfall Security Solutions is the global leader in industrial cybersecurity technology. The company's expanding portfolio of customers includes national infrastructures, power plants, nuclear plants, offshore oil and gas facilities, rail transport, refineries, manufacturing plants, utility companies, and many more. Deployed throughout North America, Europe, the Middle East and Asia, Waterfall products support the widest range of leading industrial remote monitoring platforms, applications, databases and protocols in the market. Please contact: info@waterfall-security.com

Waterfall's products are covered by U.S. Patents 7,649,452, 8,223,205, and by other pending patent applications in the US and other countries.
